168.     That was the first movie Ive ever watched in a cinema. I was a kid
and I remember crying while watching - I was in love with the characters
and I was feeling them. They felt so real to me. Now... actually, as a
grown person, now is the same. Characters are so believable and so
realistic. Watching the movie as an adult brings a whole new meaning. The
good and the bad characters from the movie are like the people I meet
everyday in real life. The story is full of morals which I think are
really important for young kids these days. I think that The Lion King is
a must for every child and adult! With its characters and plot, it can
really move you and the kids might actually learn something from it. It
is far better than modern cartoons full of meaningless action and
dialogue.

378.         I love this movie its very touching even though they are all animals
the music scenes were my favorite as well the movie itself had a whole
lot of suspense when the father died and his death was blamed on his own
son who had nothing at all to do with the tragedy but his sly evil uncle
was the one to blame he planned it all but it was very interesting when
he thought that Simba was Mufasa and then the fight at the end was
thrilling and the way he died was good for him.over all awesome movie!!!
Hope they make more movies that will keep people or viewers wanting more.
I believe that this is a great family movie to watch together.

464.         What can I say about this movie that hasnt already been said? On
every level, it is perfect until Simba is exiled, then I believe the film
devolves only slighting. The character development, plot, humor, and
animation are all on point. I only issue, which is small, is the
predictability of the plot after Simba leaves, destined to return. The
message is clear and good: Do not forget who you are/where you came from.

581.     This is a fantastic movie, and I am not lying! my 13 year old sister
loves this movie, and I cant fault this either. It was one of the first
movies I ever saw, so that accounts for how much I love it. The animation
is superb, the backgrounds look so rich, and for once, there are no stiff
movements. The highlights were the stampede and the fight between Scar
and Simba. The music by Hans Zimmer is outstanding, a perfect mix of
African chants and pure Hollywood. The songs are absolutely great, I had
no idea that Elton John could write like that. The best song is Can you
feel the Love Tonight? but the others go without fault, Circle of Life is
so spirit rousing especially. Likewise with the voice overs. Jonathan
Taylor Thomas is very likable as Young Simba, and Matthew Broderick,
while not as good, is above average too. James Earl Jones lends his
booming voice to the majestic King Mufassa, and Nathan Lane, Rowan
Atkinson and Whoopi Goldberg provide flawless comic relief. The vocal
standout is Jeremy Irons as Scar, who frightened me when I was little.
Scar is up there with the best Disney villains, like Jafar, Malificent
and Frollo. The humour here is fantastic, and you cry here a bit here as
well. I highly recommend the stage version in the West End, and the
sequels are actually two of the better DTV sequels.10/10. Bethany Cox↵

915.     This is in my top 3 animation films of all time. I dont think that
any animation film before it managed to enter the hearts of both children
and adults at once like this one. An ensemble cast with such a gripping
tale, great music and superb animation, made this one of the all time
greats. The characters are so well flushed out and each scene is so
memorable. I cannot stress just how good this film is. Without a doubt
the peak of Disney and to this day they have not made anything this
original and so influential. The creators gave us such a good villain and
great heros that in my opinion shows that an animated film can be just as
good or if not better than a real life film.↵

1001.         This is peak Disney. All other Disney films since are measured by how
they compare to this one, and so far nothing Disney has done has come
particularly close. The only other animated films of the last 30 years
that deserve a seat at the table with this behemoth is Studio Ghiblis
Spirited Away and Pixars Toy Story, with The Lion King still being the
best of the three. What puts this film above all others is its engagement
factor there isnt an age group that wont be just as entertained and
intrigued by this film as another. Its heart-wrenching, hilarious,
romantic, exciting, dramatic and at times even a bit scary. It never hits
a lull, and--so far--never gets old. This film is, by every measure, a
masterpiece.↵

    This is a powerful yet charming movie; fun for its special effects
    and profound in how it keeps you thinking long after its over. Like
    others, Ive seen this movie more than once. One comment Ive never heard
    is that Forrests simplicity is almost zen-like. I should read the novel
    to get the authors intention (I remember some people preferring the book
    and complaining that no one at the Academy Awards gave him any credit.)
    But rather than an implication that you should do what youre supposed to
    do and believe in God and youll win in the end, I see it as zen-like,
    i.e., living in the moment and not having expectations or particular
    cravings (other than his loving Jenny.) So he ends up just stumbling into
    all the major historical events of the time. Granted, he achieves this
    only because he doesnt have the brains to think otherwise and actually
    have expectations, but so many of our problems are because we do have
    higher intellect and desires, which ironically makes us unhappy because
    we know what we are missing. We love our cats and dogs for the same
    simplicity and always being in the moment. Theres a line in the movie
    wondering if everything is predestined or happens randomly or its a
    combination of both. It is something to mull over for a long time.

1535.     A groundbreaking movie from QT that intertwines several stories,a
couple of BONNIE and CLYDE type criminals kick of this ROLLER COASTER
ride with a spontaneous madcap robbery,a couple of gangsters go to
retrieve a suitcase for their boss with dire consequence and an ageing
boxer has an early retirement bout arranged in his favor,each story
unfolds in ultra violent fashion with characters crossing paths through a
criminal and corrupt network,dialogue between each unique individual is
world class as the balance between humor and terror is achieved
beautifully.an all star cast featuring some of QTs favorites put in
memorable performances here and JOHN TRAVOLTA reinvents himself and plays
VINCENT flawlessly.written and directed by QT this is one of the best
crime movies ever made and caps off a crime trilogy from QT in only the
space of 3 years - RESERVOIR DOGS 1992 - TRUE ROMANCE 1993 and now PULP
FICTION 1994 - truly amazing.....

1782.     This movie is one of the greatest of all time. It is adapted from a
book by Chuck Palahniuk. This movie has very interesting themes like
emasculatation, violence, chaos, societal breakdown, isolation, the threat
of death and consumerism. The direction is sublime. Perfect
cinematography, pacing and editing. The twists and nuances of the book
are captured perfectly. Also they did a good job with the inter-cuts.
Brad Pitt and Edward Norton were the perfect choice to lead this movie.
When you are watching the movie you just are glued to your seat, that is
just how good it is.↵

1930.     This movie was the best written, acted, visual effected, etc. movie.
        This movie was the best movie I have ever seen. I am a huge Christopher
        Nolan fan and this movie was his finest. Matthew McConaughey turned in
        his best performance of his lifetime. Anne Hathaway was an amazing
        supporting actress and compared to her performance in Les Miserables, I
        have no idea how she didnt get an Oscar for this. The visual effects were
        more than just Oscar worthy. They were pioneering. I have never seen
        anything like it. One thing I would recommend is having a little previous
        knowledge about space. Not like Einstein stuff though. I would recommend
        you see this movie as fast as you can if you are a Nolan fan or not. I
        give this movie a rating of 97 out of 100.↵

the way through. Being old enough, and lucky enough to have watched the premiere of 2001 A Space Odyssey - and viewed it several times since - of course I made comparisons, and there were a few, but this movie tells an excellent stand alone story that is both riveting and believable. Im not going to give away any secrets but anyone who watches the last five minutes or so without a lump in their throat and a tear in their eye, well youre a critic, youre not enjoying the movie because youre too busy looking for bloopers and faults. Were there bloopers and faults? The darn movie was so riveting if there were any I didnt notice them!↵

2305.     I find it hard to believe that kids movies these days will ever be
called classics in years to come (excluding Pixar movies). In my mind,
this is the last classic hand drawn film, and it upsets me that I have to
wait for another five years for it to come out on DVD. This film deals
with great issues and involves a huge conflict for the main character,
something that recent kid/family films lack. It is funny and lighthearted
when it should be, and heartfelt and serious when it needs it. I believe
that everybody should see this movie, regardless of your age. It may just
be the last good movie that Disney will ever do without the help of
Pixar.↵

2639.     Possibly the most influential movie made in history since the first
movie ever made .Even after 25 years and a countless number of copy cats
this movie absolutely holds up and feels fresh. As many of you would know
this movie is sort of like a tribute to the pulp stories written back in
the 40s and 50s which have punchy and witty dialogue and over the top
violence. The random chit chat between characters regarding obscure
things might feel a waste of time as it doesnt move the plot. But
Tarantino is a genius and he believes in character development more than
plot development so these chats actually humanizes the characters a lot
and makes them relatable and memorable(The absolute converse of Nolan).
This movie is just a collection of wonderful scenes back to back from
start to finish.. The movie is a must watch just for the awesome
screenplay alone. To top it off all the actors arguably give their career
best performance(think about it ,it is true) . And the ability of
Tarantino to just create a really tense or ridiculous situation out of
nowhere(like the psycho tribute scene with marsellus and butch which is
so unexpected or that adrenaline shot scene) is just awesome and keeps
you on the edge of your seats .So if you want an entertaining but clever
movie this is the one you are looking for . It is funny, filled with some
of the best dialogues ever ,superbly acted, great soundtracks(I just
wanna see Tarantinos ipod , boy does he have great taste) and is just a
spectacular experience.Spoilers ahead(duh): For those of you who say the
characters are hollow I suggest you to revisit the gold watch sequence.
Walkens Capt Koons tells a story to young butch about how Butchs grandpa
requested an enemy soldier to return his watch to his family and the
soldier agreed. Similarly Butch could have left Marsellus but the legacy
of his watch made him save him which I believe was a nice touch. And how
Jules(one of my characters of all time) undergoes a change is also a
noteworthy counter argument to the above mentioned criticism.↵

Tarantino a master of dialogue. It is a shockingly smart and original
movie all the way through. Every actor does a tremendous job at
delivering quotable yet realistic lines. It is very tough to decide which
scene is the best. The burger scene? The ending scene? The overdose? The
escape from the rapists? I guess I will never know which one I prefer,
and that, is what makes this film truly iconic.↵

2873.     When I first saw this movie I didnt appreciate it like I do now. I
think it may have been because I was so young when I first saw it. Just
recently I saw the movie again. What an amazing story and moving meaning.
That movie teaches you so much about life and the meaning of it. That
life isnt as bad as most people make it seem. That an innocent man can
impact so many lives with his innocence. The meaning of the movie to me
is that everyone needs to have a better outlook on life. That we need to
appreciate more of the little things and not let the big things hold us
back. That truly although life may throw us trials and tribulations like
a box of chocolates but that we have to just bite into it and get through
it even if we dont like it. That we all need to hold true to our values
and not sink into a place that feels like theres no hope... I just love
this movie. And anyone who hasnt seen it or who thinks that dont like it
I seriously suggest seeing it or seeing it again. It truly is
amazing...↵

2990.     All the threads of Tolkiens magnum opus come together in the most
elegant of fashions in the final part of Peter Jacksons adaptation.
Humanity makes a last stand at Minas Tirith, the Hobbits travel through
Mordor, our heroes try to by time for Frodo to complete his mission and
the Evil Sauron gets tired of the whole game and lashes out with all his
might and fury.&quot;Return of the King&quot; is 4 hours of payoff, a
third act in a gigantic epic rather than a mere film of its own. As such
it is intensely dramatic and dynamic and you can very much sense that
though peter Jackson spared no effort on the previous episodes, this is
clearly his favorite. the film floats by at a thunderous pace, taking us
through unforgettable moments such as the battle of Minas Tirith itself,
a marvel of seamless animation and epic film-making, it demands to be
seen, as it has too many jaw-dropping moments to choose from. The quieter
character moments keep gaining in potency and the full weight of the
stakes and their heartbreaking consequences is never in doubt.The cast of
these films have played their parts to perfection and again Jackson
deserves overall credit for choosing actors that so perfectly match
Tolkiens creations: Ian McKellen and Christopher Lee are their own
usually excellent selves, and the hobbits remain endearing, but of all
the uniformly great cast, the true standouts are Viggo Mortensen and
David Wenham as the tragic Faramir, whose relationship with his brutish
father is the most traumatic of the film. Jackson pushes them even
further by having them sing at a few key moments (a practice employed to
powerful effect by Tolkien in the books), a daring undertaking that works
wonders. And though he may offer one ending too many, he does have the
decency to show off each surviving character with the appropriate screen
time and respect.Now that the trilogy is complete, it can be viewed as
one big film, as it should be. After 8 years, Jackson has done the
impossible: he has taken Tolkiens huge legend and made films that stand
on their own and have revolutionized film-making, setting the new
benchmark for cinematic epics. Changes have been made to Tolkiens source
novels, but they make for better, more fluid films, more faithful in
spirit to Tolkiens myth than anyone had the right to hope for.A
masterpiece, whether as part of a bigger whole or on its own. Well
deserving of all the high praise thrown at it, and then some...↵
