     these days will ever be called classics in years to come (excluding Pixar
     movies). In my mind, this is the last classic hand drawn film, and it
     upsets me that I have to wait for another five years for it to come out
     on DVD. This film deals with great issues and involves a huge conflict
     for the main character, something that recent kid/family films lack. It
     is funny and lighthearted when it should be, and heartfelt and serious
     when it needs it. I believe that everybody should see this movie,
     regardless of your age. It may just be the last good movie that Disney
     will ever do without the help of Pixar.</textarea>↵

204.     That was the first movie Ive ever watched in a cinema. I was a kid
    and I remember crying while watching - I was in love with the characters
    and I was feeling them. They felt so real to me. Now... actually, as a
    grown person, now is the same. Characters are so believable and so
    realistic. Watching the movie as an adult brings a whole new meaning. The
    good and the bad characters from the movie are like the people I meet
    everyday in real life. The story is full of morals which I think are
    really important for young kids these days. I think that The Lion King is
    a must for every child and adult! With its characters and plot, it can
    really move you and the kids might actually learn something from it. It
    is far better than modern cartoons full of meaningless action and
    dialogue.↵

334.      I love this movie its very touching even though they are all animals
      the music scenes were my favorite as well the movie itself had a whole
      lot of suspense when the father died and his death was blamed on his own
      son who had nothing at all to do with the tragedy but his sly evil uncle
      was the one to blame he planned it all but it was very interesting when
      he thought that Simba was Mufasa and then the fight at the end was
      thrilling and the way he died was good for him.over all awesome movie!!!
      Hope they make more movies that will keep people or viewers wanting more.
      I believe that this is a great family movie to watch together.↵

403.      What can I say about this movie that hasnt already been said? On
      every level, it is perfect until Simba is exiled, then I believe the film
      devolves only slighting. The character development, plot, humor, and
      animation are all on point. I only issue, which is small, is the
      predictability of the plot after Simba leaves, destined to return. The
      message is clear and good: Do not forget who you are/where you came from.

     every level, it is perfect until Simba is exiled, then I believe the film
     devolves only slighting. The character development, plot, humor, and
     animation are all on point. I only issue, which is small, is the
     predictability of the plot after Simba leaves, destined to return. The
     message is clear and good: Do not forget who you are/where you came from.

551.      This is a fantastic movie, and I am not lying! my 13 year old sister
      loves this movie, and I cant fault this either. It was one of the first
      movies I ever saw, so that accounts for how much I love it. The animation
      is superb, the backgrounds look so rich, and for once, there are no stiff
      movements. The highlights were the stampede and the fight between Scar
      and Simba. The music by Hans Zimmer is outstanding, a perfect mix of
      African chants and pure Hollywood. The songs are absolutely great, I had
      no idea that Elton John could write like that. The best song is Can you
      feel the Love Tonight? but the others go without fault, Circle of Life is
      so spirit rousing especially. Likewise with the voice overs. Jonathan
      Taylor Thomas is very likable as Young Simba, and Matthew Broderick,
      while not as good, is above average too. James Earl Jones lends his
      booming voice to the majestic King Mufassa, and Nathan Lane, Rowan
      Atkinson and Whoopi Goldberg provide flawless comic relief. The vocal
      standout is Jeremy Irons as Scar, who frightened me when I was little.
      Scar is up there with the best Disney villains, like Jafar, Malificent
      and Frollo. The humour here is fantastic, and you cry here a bit here as
      well. I highly recommend the stage version in the West End, and the
      sequels are actually two of the better DTV sequels.10/10. Bethany Cox↵

745.      This is in my top 3 animation films of all time. I dont think that
      any animation film before it managed to enter the hearts of both children
      and adults at once like this one. An ensemble cast with such a gripping
      tale, great music and superb animation, made this one of the all time
      greats. The characters are so well flushed out and each scene is so
      memorable. I cannot stress just how good this film is. Without a doubt
      the peak of Disney and to this day they have not made anything this
      original and so influential. The creators gave us such a good villain and
      great heros that in my opinion shows that an animated film can be just as
      good or if not better than a real life film.↵

811.      This is peak Disney. All other Disney films since are measured by how
      they compare to this one, and so far nothing Disney has done has come
      particularly close. The only other animated films of the last 30 years
      that deserve a seat at the table with this behemoth is Studio Ghiblis
      Spirited Away and Pixars Toy Story, with The Lion King still being the
      best of the three. What puts this film above all others is its engagement
      factor there isnt an age group that wont be just as entertained and
      intrigued by this film as another. Its heart-wrenching, hilarious,
      romantic, exciting, dramatic and at times even a bit scary. It never hits
      a lull, and--so far--never gets old. This film is, by every measure, a
      masterpiece.↵

941.    The Lion King is absolutely Disneys greatest achievement to date and
    will long be hailed as such. The story is classic, but better yet are
    both the stunning animation and the inspirational score by Hans Zimmer.
    The songs are brilliantly written with music by Elton John (with help
    from Zimmer) and Lyrics by Andrew Lloyd Webbers long-time partner, Tim
    Rice. If you arent among the millions that have purchased the video DO IT

1144.     I find it hard to believe that kids movies these days will ever be
       called classics in years to come (excluding Pixar movies). In my mind,
       this is the last classic hand drawn film, and it upsets me that I have to
       wait for another five years for it to come out on DVD. This film deals
       with great issues and involves a huge conflict for the main character,
       something that recent kid/family films lack. It is funny and lighthearted
       when it should be, and heartfelt and serious when it needs it. I believe
       that everybody should see this movie, regardless of your age. It may just
       be the last good movie that Disney will ever do without the help of
       Pixar.↵
